

REMEDIAL SITE ASSESSMENT DECISION - EPA REGION II

Site Name: DOVER TOWN DUMP EPA ID#: NYD980508154 State ID#:

Alias Site Names:

City: Dover County or Parish: Dutchess State: NY

Refer to Report Dated: 95/03/15 Report type: SIP

Report developed by: EBASCO

DECISION:

☒ 1. Further Remedial Site Assessment under CERCLA (Superfund) is not required because:

☒ 1a. Site does not qualify for further remedial site assessment under CERCLA
(No Further Remedial Action Planned - NFRAP)

☐ 1b. Site may qualify for further action, but is deferred to:

☐ 2. Further Assessment Needed Under CERCLA:

2a. Priority: ☐ Higher ☐ Lower

2b. Other: (recommended action) None

DISCUSSION/RATIONALE: The Dover Town Dump site is an inactive landfill that ceased operations in 1973. The site is approximately 3 to 5 acres in size, located in the Town of Dover, eastern Dutchess County, New York. The Dover Town Dump site was officially delisted from the NYSDEC Registry of Inactive Hazardous Waste Disposal Sites on December 18, 1993 due to the lack of documentation that hazardous wastes were ever disposed of at this site. There are no groundwater monitoring wells on site. There is not sufficient evidence to confirm a release to the groundwater. There are no drinking water intakes from surface waters along the 15-mile TDL downstream of the Dover Town Dump site. There is not enough evidence to confirm a release of hazardous constituents to surface water. There has been no documented soil sampling conducted on the Dover Town Dump site. Therefore, a release of contaminants to the soil pathway cannot be established. No documentation suggesting a release of contaminants to the air has been identified.
